Caledonian

80/-IPA 4.1%

£4.25pt

Beer in Scotland was traditionally categorised in shillings, according to the amount of tax charged per hogshead - a giant barrel of which contained 42 pints. 40/- ale was a very light beer often supplied to farmhands. 50/- and 60/- beers were also reasonably light and mild. 70/-, 80/- and 90/- were progressively stronger, export-quality beers. The shilling system continued to be used to indicate the beers' quality and was legally recognised in 1914.
